# Release Information

Release Version: 2022.05 May

## Introduction

This document describes the features and functionality of the Verisae Vx Sustain 2022.05 release.

Enhancements in this release include improved performance, increased stability, and feature enhancements.

## Release overview

	Summary
WorkSpace Release Notes	<p>The May release includes the following:</p> <ul style="list-style-type: none"><li>• Add upload document option to refrigerant events on <b>Log Refrigerant Usage</b> form</li><li>• Bug fix</li></ul>

## Performance improvements and application enhancements

Feature	Summary
<h3>Notices</h3> <p><b>Non-compliant Browsers</b></p>	<p>Beginning October 1<sup>st</sup>, 2021, we no longer allow connections to webservices that utilize TLS 1.0 or 1.1 (<a href="https://wbs.verisae.com">https://wbs.verisae.com</a>, <a href="https://wbs.verisae.co.uk">https://wbs.verisae.co.uk</a>), and will only accept connections using TLS 1.2.</p> <p>There are many security reasons to upgrade to newer TLS protocols. Vulnerabilities in both 1.0 and 1.1 make it more difficult for Accruent to ensure our customer data's confidentiality and integrity, as well as the availability of our services. If we believe you are impacted, we will connect with you soon and you will need to engage with your IT department to ascertain next steps to ensure you are upgraded to TLS 1.2 to ensure your connections to our webservices remains intact. In the meantime, please reach out to your CSM if you have any questions.</p>
<p><b>Service Provider Network</b></p>	<p>Service Provider Network assists Vx Suite customers in finding Service Providers that operate in their area, and can perform the services they need. We allow searching by location serviced as well as service provided.</p> <p>Service Provider Network is a completely free service offered to all vx Maintain users and Service Providers.</p> <p>To find out how to opt in to Service Provider Network, or to learn how to use it, search Service Provider Network in Online Help.</p>
<p><b>Embeded Analytics Initiative</b></p>	<p>vx Suite now features an Analytics Engine allowing users to view Work Order data in an easy-to-navigate dashboard. For more information, see the blog post here: <a href="#">New vx Maintain Analytics Engine Helps Facility Managers Make Better Decisions</a></p>

Case number	Headline	Summary
-------------	----------	---------

## WorkSpace

VXERM-935	<b>Add upload document option to refrigerant events on Log Refrigerant Usage form</b>	We added a file uploader as part of refrigerant events. The files uploaded will live in a folder for the site. The Event number is added to the file name for future reference.
-----------	---	---

## Issue maintenance

VXERM-936	We fixed the handling of some characters in the comments and invalid events from displaying.
