Performance improvements and application enhancements

Feature	Summary
---------	---------

Notices

Embedded Analytics Initiative	<p>vx Suite now features an Analytics Engine allowing users to view Work Order data in an easy-to-navigate dashboard. For more information, see the blog post here: New vx Maintain Analytics Engine Helps Facility Managers Make Better Decisions</p>
--------------------------------------	--

Case number	Headline	Summary
-------------	----------	---------

WorkSpace

VXERM-949	Post Repair SIC (FVT) captures asset data for new work order	We updated the Post Repair SIC (FVT) generated work orders to capture any known asset data and use that on the new work order.
-----------	---	---

Issue maintenance

Case number	Issue summary
VXERM-956	Cylinder recovery values now show properly. When you change the cylinder usage type, the cylinder locations reload on Mobile to be a fresh set of data, as intended.
VXERM-98	We updated the SIC page to properly show required fields. We redesigned the page to fit the system details at the top on larger screens and to enforce limitations for selecting other users, like the Log Refrigerant Usage page does today.
